PROFESSIONAL SUMMARY

Entry-level full-stack developer with hands-on experience contributing to startup web development and building practical web applications. Skilled in React, Next.js, TypeScript, JavaScript, Node.js, Tailwind CSS, APIs, and modern deployment workflows. Background includes front-end and full-stack development, responsive UI implementation, API integration, and self-directed technical learning through certifications and portfolio projects.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion, shadcn/ui

Backend & APIs: Node.js, REST APIs, authentication systems, MongoDB, basic API security

Payments & Integrations: Stripe, Lemon Squeezy, subscription billing flows, third-party integrations

Tools & Deployment: Git, GitHub, Vercel, Cloudflare, DNS management, basic CI/CD workflows

Workflow & Systems: LazyVim, Obsidian, rapid prototyping, MVP development, basic system design

EXPERIENCE

D-Sports - Front-End / Full-Stack Developer

2025 | 6 months

- Contributed to the development of a sports card trading web/mobile application with pack-opening, card collection, quests, and achievement-based reward systems.
- Built and improved user-facing features for interactive sports card experiences, including UI flows for collecting, trading, and unlocking digital cards.
- Worked on responsive layouts, reusable components, and application interface structure using modern JavaScript and TypeScript workflows.
- Assisted with connecting front-end features to backend/API functionality for app data, user actions, and card-related features.
- Helped debug, test, and improve application features during active startup development.
- Gained hands-on experience working in a fast-moving startup environment with changing product priorities.

Crunch Fitness - Protein Shake Bar Associate

2022 | 2 months

- Prepared and served protein shakes and nutrition-focused products in a gym environment.
- Assisted customers with orders, product questions, and point-of-sale transactions.
- Maintained cleanliness, organization, and product readiness during shifts.
- Developed customer service, communication, and time-management skills.

PROJECTS

Developer Portfolio Website

drakeze.com

- Built and maintained a personal developer portfolio to showcase web development projects, technical growth, and deployed work.
- Designed responsive layouts using modern front-end tools.
- Organized project links, professional information, and development work into a central public hub.
- Used the site to demonstrate practical experience with deployment, UI structure, and portfolio presentation.

Full-Stack Web Applications

- Built multiple web applications using React, Next.js, TypeScript, Node.js, and Tailwind CSS.
- Connected front-end interfaces to APIs and databases.
- Worked with authentication, payment integration, deployment, custom domains, and production-ready settings.
- Practiced building small-scale systems from idea to deployed application.

EDUCATION

Cypress College

Computer Science Coursework | 2024-2025

Buena Park High School

High School Diploma | Class of 2023

CERTIFICATIONS & COURSES

- API Integration - End-to-End Web Development, Board Infinity
- Getting Started with Git and GitHub, IBM
- Introduction to HTML, CSS, & JavaScript, IBM
- Introduction to Software Engineering, IBM
- Fundamentals of Engineering
